

# \$25, \$50, \$75, \$100 – Building Teams Within All Budgets

## CanLead Forum 2010

Presented by Joe Richards - [www.yoyojoe.com](http://www.yoyojoe.com)

Get the most for your money - you can run full day programs with items costing less than \$25. It is going to rely on your ability to use the various tools that are at your disposal. Read books and research articles. In the end - the program is only as good as the facilitator. There is a booklist on the website - [www.yoyojoe.com](http://www.yoyojoe.com) - and it will give you many ideas on how to use the following supplies.
